

AWERB-UK

Delivering an effective AWERB – Challenges and solutions

A forum for UK AWERB members organised by RSPCA, LASA, LAVA and IAT

Central London, Thursday, 12 May 2016

This meeting provided a forum for Animal Welfare and Ethical Review Body (AWERB) members to discuss how they have made progress with respect to achieving all of the AWERB's tasks, compare experiences, discuss relevant topics and identify any training needs. It was attended by 106 participants representing a range of AWERB members including animal technologists, project licence holders, Named Persons, lay and independent members.

The meeting agenda is set out below, with links to speakers' presentations and notes from the ten workshops that were held on the day. We hope that all of this content is useful for members of AWERBs, Animal Welfare Bodies and other ethics or animal care and use committees. We would also like to encourage others to use this agenda as a template for running similar meetings to help progress effective ethical review - please contact research.animals@rspca.org.uk if you would like further information about how the meeting was convened and run.

The organisers plan to hold further AWERB-UK meetings and to follow up on the various issues and conclusions raised by this first meeting; please use the above email address if you have any comments on these or would like to be kept informed about future initiatives.

Welcome and introduction - Penny Hawkins, RSPCA
